COMFORT ZONE

[comfort zone] was conceived in Parma, Italy, in 1996 as the skincare division of Davines Group, a family-owned company still in the caring hands of the Bollati Family. What began as a research laboratory and manufacturing site for the development of high-quality formulas has grown into an internationally awarded and distributed professional range of spa treatments and home care. The evolution of [comfort zone] rests in the vision and scientific background of the President Dr. Davide Bollati, pharmacist and cosmetic chemist, who has always valued extensive and constant research to support his commitment to excellence.

We constantly collaborate with a team of doctors and scientists so that every skin care solution is the most innovative and effective integrated response to a specific skin need. Since skincare products feed and nourish the skin, we are extremely rigorous about what we put in our formulas. We select the finest natural-origin active ingredients and combine them with the most advanced high-tech molecules and carrier systems to guarantee the maximum efficacy, safety and pleasantness of our products.

Our treatments are about honoring our skin and body, the role of the therapist and esthetician is key for your beauty balance, health and vitality.
